

SCIENCE & RELIGION
PAPER 3, ROUND 2
Reviews

1 Your assignment

Once again, your goal is to provide written feedback on each of two papers. This feedback should address any elements—small, medium, and large—that interfere with your ability, as a reader, to follow the exposition. You do not need to edit the paper, but rather highlight issues that will help the author edit their own writing to the greatest effect.

Once again, I will share with each of you, in the shared Google Drive folder for Paper 3, the papers that you are to review. Recall in mind that this process is *double-blind*: you will not know who authored these papers, and **your reviews should likewise be anonymous.**

2 How to submit your work

The papers will be given to you as `paper-1.pdf` and `paper-2.pdf`. When you have completed your reviews, upload each review as a PDF to your shared folder as `review-1.pdf` and `review-2.pdf`. **Please take care that the reviews are indeed PDF files, and that they are named exactly as specified here.**

This assignment is due on Thursday, Dec-07, 11:59 pm.
